

Taha Boulehmi

Entrepreneur/Programmer

Motto: "IT'S NOT OVER UNTIL I WIN"

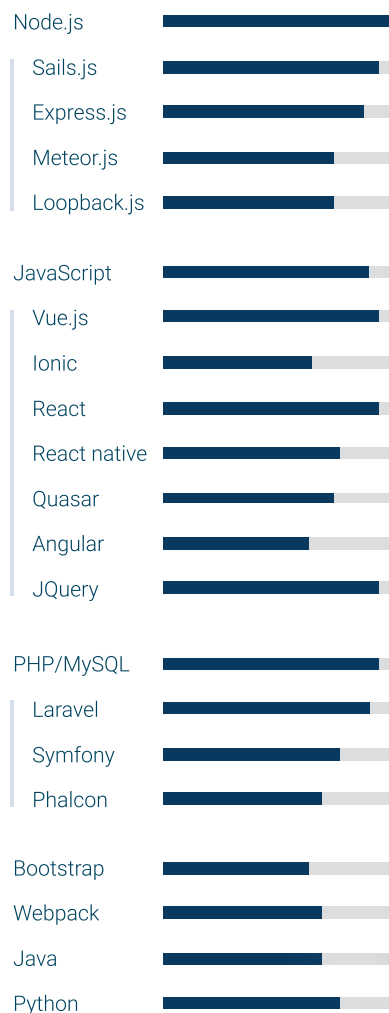

I'm a lifelong programmer, online marketer, penetration tester, entrepreneur, and as of 2017, I'm investing in multiple early stage startups. I spent most of my time coding, working on my ideas and helping companies unlock their Digital Business Potential.

Latest projects

- CommuniPay:**
A platform that helps accept Credit Cards, Paypal, Sofortüberweisung, Lastschrift and bitcoins on websites all through the CommuniPay api. I was the Frontend leader of the project. I focused heavily on security because of the PCI compliance requirement.
React - GraphQL - Webpack - Sass 11-2018 - 02-2019

- Visit-x.net: Germany's leading Erotic-Cam-Portal**
Being the leader for 19 years, It's a very high stakes environment with no room for error. Steaming servers, media libraries and many components having to be updated, or hot swapped with little to no down time. User privacy and data security are paramount.
React.js - PHP - ElasticSearch - WebPack 09-2018 - 01-2019

- Simplycated.de : Innovative Asset Manager Software**
Developed an innovative asset manager which is a valuable asset to any company. It helps it track and manage its resources digitally thus increasing efficiency, allowing for realtime oversight and moving to Industry 4.0.
Node.js - Sails.js - Vue.js - RFID 07-2018 - 01-2019

- Products Importer: Import any product to your shopify Store**
An innovative Shopify App Robot to help shop owners import any product from other shops and start selling it with just one click. This reduces search time and enables a faster go to market time.
Node.js - Angular.js - Express.js - Shopify API 11-2017 - 07-2018

- Smart Tracker: A shopify application to allow your customers to track their orders in real time**
The most important thing for every customer after buying a product is the delivery. SmartTracker is programmed to solve this problem and help shop owners turn frustrated customers into calm ones.
React.js - Node.js - Express.js - Shopify API 01-2018 - 08-2018

- VatoTicket.com: Online ticketing**
Vatoticket is an online end-to-end, multipurpose ticketing platform that allows users to organize events and start selling tickets in a few minutes. the most important features are realtime ticket authentication, event organiser dashboard, event creation and management
Node.js - Sails.js - JQuery - Socket.io 09-2017 - 04-2018

- GoTrip: Travel Agency Software**
GoTrip is a Software as a service to help travel agencies and hotels unlock their digital business potential. It allows them to sell their services online, accept bookings and payments, and increase their revenue.
PHP - Symfony - JQuery 06-2017 - 01-2018

- Island-reisen.de: CRM / booking system for travel agencies**
Island Reisen is a travel agency based in berlin in specialized on organizing trips to Island. I worked on a CRM using Phalcon to allow them to manage their bookings digitally.
PHP - Phalcon - JQuery 01-2017 - 08-2017

- Corpshaus 2.0: Intranet software with all finesse for clubs and associations**
Corpshaus is a Software as a Service that provides clubs, associations and their members with all the tools they need to work. It is written using Ruby on Rails and Vue.js.
Vue.js - Ruby On rails 09-2018 - 10-2018

- InnoSign - Online Shop to sell life style products**
InnoSign is specialized in selling Lifestyle & Multimedia - Gadgets & Accessoires. To increase their revenue, I helped them redesign and redevelop their online shop
Magento - Sass - Bootstrap 01-2018 - 06-2018

- ShopiSpy: a shopify tool to find winning and best-selling products**
Each Store owner faces daily the problem of finding the new winning-product. And that's exactly why I created ShopiSpy. It is fully written by me using the Fullstack JS.
Node.js - Sails.js - Vue.js 05-2018 - 08-2018

- Sommer GmbH Energy App: an application to show a catalogue of products**
Sommer GmbH Energy App is an application written in Microsoft Xamarin to allow this Leading Distributor of heating-tubes, cables and cable accessories to show its catalogue of products through an app.
Microsoft Xamarin - Node.js - JQuery 12-2017 - 04-2018
